 1    down until about 11:00 a.m.  So no votes were cast

 2    before 11:00 a.m."; correct?

 3         A    Yes.

 4         Q    How do you know that no votes were cast before

 5    11:00 a.m.?

 6         A    I didn't leave.  We stayed while the machines

 7    were down.  They tried to get them up.  We had to wait.

 8    They sent somebody out to get more machines or

 9    something.  They came back with that.  Then the cords

10    didn't work.  So at this time I'm calling my job,

11    telling them I'm not coming in until I cast my vote,

12    so ...

13         Q    So let's briefly jump down to paragraph 7.

14         A    Okay.

15         Q    You state, "The line to vote was wrapped

16    around the school by the time I got to vote"; right?

17         A    Yes.

18         Q    Between 7:00 a.m. and 11:00 a.m., where in

19    that line were you?

20         A    I wasn't in line no more.  We were all sitting

21    down at tables, waiting for them to get the machines

22    up.

23         Q    Okay.  And no individual voted on a

24    provisional ballot between 7:00 a.m. and 11:00 a.m.?

25         A    Provisional ballot, that's the paper?
```

```
 1        Q     Uh-huh (affirmative).

 2        A     People were voting on that.  I just didn't

 3   want to do it.

 4        Q     Okay.  So if we go back to paragraph 4 --

 5        A     Okay.

 6        Q     -- you state, "No votes were cast before 11:00

 7   a.m."; correct?

 8        A     Yes.

 9        Q     But what you mean to say is that no votes were

10   cast on a DRE machine before 11:00 a.m.?

11        A     That's fine, yes.  You could say that.

12        Q     Okay.  And I understand that -- I should say

13   generally we're not trying to catch you in a squeeze or

14   anything.  We're just trying to clarify the testimony.

15        A     I'm good.

16        Q     Okay.  So there were individuals casting

17   provisional ballots during that time?

18        A     Yeah.  But I don't know what time they

19   started.

20        Q     Okay.  So you state in paragraph 5, "At first

21   we were told the license verification machine was

22   broken"; correct?

23        A     Yes.

24        Q     And do you know what an express poll machine

25   is?
```

```
 1       Q    Because you were waiting to use a DRE machine?

 2       A    Yes.

 3       Q    Okay.  So I take that to mean you were pretty

 4  close to the front of the line; right?

 5       A    Yes.

 6       Q    Okay.  And there were probably others that had

 7  not yet checked in that were waiting past the poll

 8  worker?

 9       A    I think they all got mixed in by then.  So

10  people that didn't want to use the ballot, the paper

11  ballot, they were just sitting around.  Everybody was

12  sitting around.  I don't -- it was still a line out,

13  but us, we was in there sitting.

14       Q    And why didn't you want to use a paper ballot?

15       A    I don't trust them.

16       Q    Why is that?

17       A    I don't like them.

18       Q    Do you believe that they are more prone to

19  fraud or --

20       A    Yes.

21       Q    -- miscalculation?

22       A    Yes.

23       Q    All of the above?

24       A    All of the above.

25       Q    Okay.  And so your preference is to vote on an
```

```
 1    electronic machine?

 2         A     Yes.

 3         Q     Because it gives you more confidence in the

 4    accuracy?

 5         A     It does.

 6         Q     Okay.  Do you consider it easier to vote on

 7    than a paper ballot?

 8         A     No.

 9         Q     About the same?  You just don't trust the

10    paper?

11         A     I don't trust the paper, right.

12               MR. MILLER:  Could we go off the

13         record for a second?

14               (A discussion ensued off the record.)

15    BY MR. MILLER:

16         Q     Mr. Marion, I'm going to hand you a document

17    which we will mark as Exhibit 3, which has been

18    produced in this case and is Bates numbered

19    PLTFS-FFA-002450.

20               (Defendants' Exhibit 3 was marked.)

21               MR. MILLER:   I should further clarify

22         that Bates numbering continues on through

23         002452.

24               MR. KASTORF:   The one that's marked

25         with a sticker, does that have the full
